Cher Pierre,

As you know, your birthday comes this year on December 10 or 11. Interestingly, the birthday of Barbara my wife comes this year at almost the exact same time, December 5 or 6. We were thinking that it might be gaseous, if you go in for that sort of thing, to have a double birthday observation in the city of Frisco sometime long about the first or second week in December. I say "we"--of course, it was the idea of Barbara my wife.

But it is not such a bad idea is it? Dinner out at a nice restyourrump and some sort of entertainment? Good company? Beautiful women? Money? We have not been out to dinner since--well, weekend before last, when we went with the Davises to Vince's Pizza and paid more for the wine than for the lasagna. What we had in mind for December--I say "we"--was something with a little more ton than Vince's Pizza. Of course we don't know Frisco the way you do.

So if the prospect of spending a gay evening with the Shaws doesn't upset you too much and if you don't mind thinking about things so far in advance, think about it and let us know what you think about it. We have to think about things far in advance because if we don't we don't do anything.

Barbara is working and getting the GI Bill so we are flush.

G. Shaw

P. S. We would be sans enfants.
